

Standard B1

Hi Kris

Steve and I were wanting to "voice candy" the students facts about their artifacts for conferences. Would we need your help on this, or is it something we could play around with and figure out?

Hi Kris

Do you have time to come up and see me at any stage today so that I can tell you about my next epiphany? No worries if not.

Hi Kris

I'm writing to ask for help when it comes to publishing our non fiction writing. The students are going to have to add in a lot of text features e.g. table of contents, index, glossary, photos, timelines etc (all depending on what they have chosen to write about). Does pages have all of these features, and if it does, would I need to book in sessions with you?

Hi Kris!

I just discovered that World Maths Day is March 1st. Last year we registered as a school and then just added our class. Are we doing that again or should I just go ahead and register my class? I want to get started on the practice--it is only 2 and 1/2 weeks away! Thanks,

Hi Kris,

Can I please book you for Tuesday March 29 at 11:00am. I would like to produce my information essays onto an A3 'poster' I can show you an example when you are passing by if you pop in the classroom. Thanks

Dear Kris,

I know you are very busy. If you have time, would you be able to help me get the student and interactive blogs in order? I need help in streamlining and getting it in order even though it is late in the school year and I don't quite understand it all. I'll make time anytime you are free. Thanks.

Kris,

IF there is time do you think we could do a repeat of last Years Calendar project with 2KL and 2RV and of course anyone else who may want to do this. I just came across a sample from last year and my memory was jogged. I am guessing it would take two sessions. Let me know and we can book it if your think it is doable.

Hi,

I took a look at what Char did with the angles and I love it. I am making a template that looks like the one Char did so it won't take the kids as long to create. It involves them choosing their best picture in each of the three categories -- acute, obtuse and 90. I thought it looked clean. They then described something -- was it why they picked this one??? I will check or Char can reply all about what they wrote -- this will be your decision what you want them to write. Then we can add a title, labels for the three parts and their name.

This can be saved as a jpg and put on your blog and/or printed and put on your wall.

If you have not yet booked, I am pretty full between now and the time I leave for Singapore for a conference next week, but could book you in when I return on March 8 -- or you could probably figure it out on your own and teach it. It is pretty simple and I can give you the template we are using.

Thanks,

Kris
